SEO Content

		stations. Terms like "USB 3.2 Gen 2" leave people scratching their heads due to their ambiguity. Thankfully, those names are finally being phased out, thanks to a new USB labeling system. • [H5] Big quote: What do you do when your latest CPU is proving so popular that consumers are struggling to get their hands on it? If you're AMD, it's to partly blame rival Intel for releasing such a "horrible product" as a competitor – i.e., the Arrow Lake desktop processors. • [H5] The big picture: Nvidia's Jensen Huang kickstarted CES this year with his keynote. We listened to it and read a fair amount of analysis since. If you don't have 90 minutes to spare, we can sum it up for you: Nvidia has all the software. Or at least it has more than you do.
